VOLUME CONTENTS

Volume 61 (1989)

PHYSIOLOGY AND BIOCHEMISTRY

Growth, in-vivo extensibility and tissue tension in mung bean seedlings subjected to water stress
by U. Kutschera (Stanford, CA) 1–7

K^+/H^+-antiport in *Riccia fluitans:* An alternative to the plasma membrane H^+ pump for short-term pH regulation?
by H. Felle (Giessen, F.R.G.) 9–15

Modulation of lipid and fatty acid content by carbon dioxide in *Chlamydomonas reinhardtii*
by N. Sato (Tokyo, Japan) 17–21

(7)Glucosylation and (1-6)rhamnosylation of exogenous flavanones by undifferentiated *Citrus* cell cultures
by E. Lewinsohn, E. Berman, Y. Mazur and J. Gressel (Rehovot, Israel) 23–38

Incomplete turgor pressure regulation in the "terrestial" red alga, *Bostrychia scorpioides* (Huds.) Mont.
by U. Karsten and G.O. Kirst (Bremen, F.R.G.) 29–36

Relation between nitrogenase activity and stem or xylem sap ureide content of soybean plants (*Glycine max* L. Merr)
by C. Argillier, J.-J. Drevon, M. Zengbe and L. Salsac (Montpellier, France and Abidjan, Ivory Coast) 37–42

Immunogold localization of primary carboxylases in leaves of aquatic and a C_3-C_4 intermediate species
by J.B. Reiskind, R.H. Berg, M.E. Salvucci and G. Bowes (Gainesville, FL, Memphis, TN and Lexington, KY) 43–52

Variations in membrane polar lipids of barley leaves infected with three strains of barley stripe mosaic virus and with poa semilatent virus
by A. Ádám and P.D. Nagy (Budapest, Hungary) 53–59

Nitrate reductase synthesis in squash cotyledons
by S.J. Martino and J. Smarrelli, Jr. (Chicago, IL) 61–67

GENETICS AND MOLECULAR BIOLOGY

Protein synthesis and modification by heat in rice cell cultures
by J.L. Fourré and J. Lhoest (Louvain-la-Neuve, Belgium) 69–74

Gene copy number and levels of expression in transgenic plants of a seed specific gene
by A.H. Shirsat, N. Wilford and R.R.D. Croy (Durham, U.K.) 75–80

Unique properties of a 1.36 kb circular DNA associated with *Sorghum* mitochondria
by A.J. Wilson, R.E. Lloyd, C.K. Ragland, P.S. Chourey and C.D. Chase (Gainesville, FL) 81–90

CELL AND TISSUE STUDIES IN VITRO

Differential response to potassium permanganate of regenerable and of non-regenerable tissue cell walls from maize callus cultures
by D.R. Duncan and J.M. Widholm (Urbana, IL) 91–103

Intrageneric asymmetric hybrids between *Nicotiana plumbaginifolia* and *Nicotiana sylvestris* obtained by 'gamma-fusion'
by I. Famelaer, Y.Y. Gleba, V.A. Sidorov, V.A. Kaleda, A.S. Parokonny, N.V. Boryshuk, N.N. Cherep, I. Negrutiu and M. Jacobs (St.-Genesius-Rode, Belgium and Kiev, U.S.S.R) 105–117

Regeneration and analysis of plants from stolon segments of *Trifolium repens* (white clover)
by J.E. Bond and K.J. Webb (Aberystwyth, U.K.) 119–125
High frequency plant regeneration through somatic embryogenesis in finger millet (*Eleusine coracana* Gaertn)
by S. Eapen and L. George (Bombay, India) 127–130
Ethylene effects on pollen callus formation and organogenesis in anther cultures of *Solanum carolinense* L.
by T.L. Reynolds (Charlotte, NC) 131–136
Transfer of cytoplasmic factors by asymmetric fusion from a cross-incompatible species, *Nicotiana repanda* to *N. tabacum* and characterization of cytoplasmic genomes
by T. Kumashiro, T. Asahi and F. Nakakido (Shizuoka, Japan) 137–144
Establishment of stable long-term photomixotrophic cell cultures of tobacco (*Nicotiana tabacum* L.)
by W.C. Wang, J.R. Myers and G.B. Collins (Lexington, KY) 145–151

PHYSIOLOGY AND BIOCHEMISTRY

Induction of chitinase and β-1,3-glucanase in tobacco plants infected with *Pseudomonas tabaci* and *Phytophthora parasitica* var. *nicotianae*
by F. Meins, Jr. and P. Ahl (Basel, Switzerland) 155–161
Purification and yield of a cationic peroxidase from a peanut suspension cell culture
by P.A. Sesto and R.B. van Huystee (Ontario, Canada) 163–168
Postinfectional changes of lipids and photosynthesis in *Lycopersicon esculentum* susceptible to *Phytophthora capsici*
by M.C. Soulie, D. Troton, P. Malfatti, G. Bompeix and D. Laval-Martin (Paris, France) 169–178
Stimulation of lignification in neoformed calli induced by *Agrobacterium rhizogenes* on bean hypocotyls
by J. Grima-Pettenati, D. Chriqui, P. Sarni-Manchado and E. Prinsen (Toulouse and Paris, France and Wilrijk, Belgium) 179–188
6-Benzylaminopurine and its glycosides as naturally occurring cytokinins
by S.K. Nandi, D.S. Letham, L.M.S. Palni, O.C. Wong and R.E. Summons (Canberra, Australia) .. 189–196
Antagonism between abscisic acid and cytokinin in chlorophyll synthesis in pine seedlings
by G. Jelic and M. Bogdanovic (Banatska, Yugoslavia) 197–202
Effect of abscisic acid and kinetin on protonemal differentiation in *Timmiella anomala*
by R.N. Chopra and A. Kapur (Delhi, India) 203–206
Induction of phototropism by multiple pulses of unilateral light
by R.J. Ellis and D. Degruttola (Lewisburg, PA) 207–212
Abscisic acid or high osmoticum promote accumulation of long-chain fatty acids in developing embryos of *Brassica napus*
by R. Finkelstein and C. Somerville (East Lansing, MI) 213–217

GENETICS AND MOLECULAR BIOLOGY

Location of a single tRNA-His gene on the master chromosome of sunflower mitochondrial DNA
by L.R. Ceci, M. Ambrosini, L. Siculella and R. Gallerani (Trani, Lecce and Bari, Italy) 219–225
Occurrence and partial characterization of an RNA species in rice mitochondria
by W. Zong-Yang, Z. Fei-Qin, G. Xiao-Li and H. Meng-Min (Shanghai, Peoples Republic of China) 227–234
Isolation of nuclear, chloroplast and mitochondrial DNA from the moss *Physcomitrella patens*
by J.R. Marienfeld, R. Reski, C. Friese and W.O. Abel (Hamburg, F.R.G.) 235–244

CELL AND TISSUE STUDIES IN VITRO

Structure-activity relationships of auxin-like plant growth regulators and genetic influences on the culture induction response in maize (*Zea mays* L.)
by K.R. Close and L.A. Gallagher-Ludeman (San Jose, CA) 245–252

A simple, efficient method for the *Agrobacterium*-mediated transformation of carrot callus cells
by E.S. Wurtele and K. Bulka (Salt Lake City, UT) 253–262
The formation of adventitious buds in vitro on micro-cross sections of hybrid *Populus* leaf midveins
by O.Y. Lee-Stadelmann, S.W. Lee, W.P. Hackett and P.E. Read (Minnesota, MN) 263–272
Subject Index Volume 61 273–276
Author Index Volume 61 277–278
Contents Volume 61 279–281
